

1910 CENSUS

The following is an extraction from the original copy of the 1910 Hawaii Census for Ka'u. People who were NOT born in Hawaii are excluded from the list.

How to read the census: example:

#1, Bertelman, Henry G., head, m. c.h., 36,mi,16,Ha  
Margarete,wife, f, ha, 32,mi, 16,7,7

Reads as follow:

#1 is the dwelling number of the family.

Bertelman, Henry G., is the name of the individual.

head, means this person is Head of this household. The other meanings in this slot are the relationship this person is to the Head of household. For example: wife, son, daughter, cousin, Mother, Father, Boarder, etc.

m or f, is the sex of the person listed.

c.h., is the person nationality in this case meaning Caucasian/Hawaiian. Others are:

ha...Hawaiian  
ch...Caucasian/Hawaiian  
ah...Asian/Hawaiian  
chin..Chinese  
oc....Caucasian  
Jap...Japanese

36, is the age of the individual.

mi, is married, S for single and W for widow. The number following the M is number of marriages for that individual.

16, this means either:

- a. Total of years individual has been married.
- b. Number of years for present marriage.

Hawaii is the individual's birth place.

Margarete, has no surname. When a person is listed to the right as in this case it means they are going by the same surname as the one they are listed with.

She is Margarete, wife to Head, female, Hawaiian, 32 of age, married 1 time, 16 years of marriage.

7,7 means she has given birth to seven children (first 7), seven of these children are living. If it read 7,3 it would mean she has given birth to seven children and only three are living.
