

CIRCUIT COURT PROBATES

Definition of "Probate":

Official proof, esp. of an instrument offered as the last will and testament of a deceased person.

On some of these Probates there are genealogies of the person who had passed away.

The probate packets are only indexed by the person who has passed on. Our goal is to supply an index of all the relatives of the person who has died.

The following is an Index of the Ka'u Circuit Court probates.

THIS IS ONLY AN INDEX

HOW TO USE INDEX

There are three indexes. This is help you to find your family easier. The following will explain each and how to cross reference.

There are 3 sections:

Section one

An index of all probates in the Ka'u Circuit Court records.

Section two: THIS INDEXS ONLY THOSE FROM KA'U

Alphabetized names of all relatives of the deceased who are listed in his/her probate packet.

Section Three

This is a list of all who are in the Probate but now they are listed by packet numbers.

Description of Sections

Section one

An index of all probates in the Ka'u Circuit Court records. In order by:

Probate Packet number.

Name of deceased only.

Year the probate was recorded.

Area the deceased was from.

Section two: THIS INDEXES ONLY THOSE FROM KA'U

Alphabetized names of all relatives of the deceased who are listed in his/her probate packet.

How to read section two:

Probate Packet number.

Name of person listed in packet.

The person's sex.

If you find your ancestor in the Alphabetized list you would go to section three and see who else is in the same Probate packet as your family member.

Section Three:

This is a list of all who are in the Probate but this time they are listed by packet numbers.

Now, if you have found your family get a copy of the orginal documents and read what else it tells about your ancestors.

From any L.D.S. Family History Center you can order a copy of the following film.
