NOTE: All years followed by an "+" are leap years.

#—The year 1700 was a leap year only in the localities still using the Julian Calendar.

The year 1744 was a leap year on both the Julian and Gregorian Calendars, however Easter was celebrated a week apart in Germany and Denmark, thus the key for 1744 in Denmark and Norway under the Gregorian Calendar would be "8" instead of "15" as shown in the table above.
